EDUCATION

VIT Bhopal University

B.Tech: Computer Science and Engineering Specialization in Cloud Computing and Automation

CGPA : 8.07

Sept 2022 - June 2026

SKILLS

Technologies/Frameworks: React.js, Node.js, Express.js, MongoDB, nextjs

Developer Tools: VS Code, GitHub, Git

Technical skills: Java, Python, HTML, CSS, JavaScript,SQL

EXPERIENCE

Web Developer intern in OCTANET SERVICES Pvt Ltd (Remote)

Dec 2023 - Jan 2024

- Developed Components for the website using HTML, CSS, JavaScript.
- Managed task allocation, code reviews, and ensured timely progress through regular team meetings and updates.
- Developed TODO app as a component with responsive UI using MERN.
- Gained valuable experience in technical leadership, project planning, and delivering a complete full-stack web application in a professional environment

ACADEMIC PROJECTS

E-Commerce (MERN Full Stack)

June 2024

- Developed secure authentication pages using JWT, enabling login for over 100 test users.
- Implemented CRUD operations on the cart page for storing items in the MongoDB cart collection.
- Built a mobile-first responsive design that adapts seamlessly across 5+ device types.
- **Technologies Used:** HTML, CSS, JavaScript, React JS, Node JS, VITE, Tailwind CSS, JSON, MongoDB, Express, git
- **Link and Results:** <https://github.com/485518110dheerajkumar/VITEZ>

Animal Welfare (Full Stack Web Site)

Jan 2023

- Created a website to help animal shelters showcase rescued animals and promote adoptions.
- Designed and developed animal profile pages, donation section, and adoption request form.
- Integrated Razorpay for online donations, tested with ₹5000+ in dummy transactions.
- Integrated basic backend functionalities to manage animal and user data.
- **Link and Results:** <https://485518110dheerajkumar.github.io/AniCare/>

CERTIFICATIONS

- MERN Full Stack certified by Ethnus (April 2025)
 - Gained hands-on experience in building end-to-end web applications using MongoDB, Express.js, React.js, and Node.js.
 - Developed and deployed responsive, scalable full-stack projects, integrating frontend with backend APIs.
- Postman API Fundamentals (July 2025)
 - Learned to design, test, and document RESTful APIs using Postman collections and environments.
 - Acquired skills in API automation, debugging, and collaboration, ensuring efficient backend integration.

EXTRACURRICULAR ACTIVITIES

- Completed 100 Days of Code challenge on LeetCode.
- Open contributor in code-athon club where I developed full stack web site for rural development.

ADDITIONAL INFORMATION

Hobbies:

- Meating new peoples
- Reading Books
- Team leadership

Languages:

- English
- Hindi
